

Just In Time Communications is pleased to provide this exclusive satellite television offer for ARVC and its members. The free equipment offer provided requires a minimum commitment of 60 months to a DirecTV service contract and a minimum of \$4.00 per month/per drop programming for all seasonal months in business, which includes the “Base Level/In Room Choice Package” for the full 60 months of the DirecTV agreement. See DirecTV agreement for details. You will be provided with a free equipment lease on all modulation and distribution equipment provided by Just In Time Communications. At the end of the 60 month period, all equipment will become property of the park after a \$1 commercial lease buyout and minimum 5 yr Just In Time Communications service agreement renewal. DirecTV service will be continued at market cost with no interruption to the service.

Any park leaving ARVC or terminating their Just In Time Communications Lease prior to the completion of this commitment will be responsible for paying back the total remaining balance of their equipment lease (\$5,000 total/ \$85 per month). Any cancellation penalties will be applied if the DirecTV service contract is terminated. Just In Time Communications will only provide this offer to ARVC members; at any time ARVC may notify our company of a membership cancellation, the remaining amount of the equipment lease will be immediately invoiced to the park. Any failure to repay this amount within 30 days will result in an immediate and complete removal of equipment from the park.

We look forward to working with ARVC and providing you the best television service at the best value in the industry.

Thank You,
Justin Jones
CEO
Just In Time Communications
